In the Fall of 1968, a young entrepreneur named Don Fettes established Water Conditioning Canada Limited to sell and support plumbing and heating wholesalers sell water conditioning products to the plumbing trade.

Now known as WaterGroup, the Regina-based company has gone from a 4,000 sq ft distribution facility to an 80,000 sq ft full-fledged manufacturing plant, becoming the leader in the Canadian Water Treatment industry. As a true manufacturer, WaterGroup makes fiberglass pressure vessels, rotationally molded brine tanks and assembles the Fleck control valve under exclusive license for Canada. WaterGroup now employs over 200 people across North America with four facilities and over 150,000 sq ft.

According to Don Fettes, who continues at the helm of WaterGroup, "...our success is directly related to our people. To be successful in this business you have to have the knowledge and desire to support your customers." An average employee tenure of 11 years in manufacturing, 19 years in Customer Service,

17 years in the Commercial Engineering and Application Centre and 20 years in the Sales Group is a testament to WaterGroup's ability to provide true value-added support.

"WaterGroup's success is directly related to our people."

Don Fettes, Founder of WaterGroup

"We would like to thank all of our customers for allowing us the opportunity to serve them over the past 40 years. We look forward to many more years of mutual success," stated Dale Lewgood, Vice President of Sales.

Flexlite FLU Storage Tanks

The Flexlite FLU Storage Tank is made from a unique three piece internal construction that allows for consistent engineered dome profiles and integrally bonded connections which lead to longer tank life. Its heavy duty base is molded out of ABS for maximum strength and durability. It has a removable schedule 80 PVC bottom connection that can be "accessorized" for increased installation flexibility.

Visit our website at www.watergroup.com for more information.

Consumer Literature

WaterGroup makes selling easy with our FREE "Make Water Work for You" consumer literature. The literature gives you all the selling points you need to sell a water softener, whole house filter or reverse osmosis drinking water system.

WaterGroup: Product Bulletins

Novatek & Duro TM Units Come With 9100SE Valve

Novatek & Duro TM 8500SE units have been discontinued and replaced with a new product line of TM units. The new Novatek and Duro TM units will come with the 9100SE control valve.

This is a running change as the current 8500SE TM units inventory is exhausted we will begin substituting the new TM 9100SE units.

The following is an old to new item number cross-reference.

NOVATEK

DURO

New 9100SE TM Item #	Old 8500SE TM Item #	Model
3917	3920-1	NT32TM,9100SE
3918	3921-1	NT40TM,9100SE
3919	3922-1	NT48TM,9100SE

New 9100SE TM Item #	Old 8500SE TM Item #	Model
6217	3220-1	DT30TM,9100SE
6218	3221-1	DT40TM,9100SE
6219	3222-1	DT45TM,9100SE

PVC Hydrocharger to Replace Brass Hydrocharger

Watergroup has discontinued using the Brass Hydrocharger (32381) in Chemical Free Iron Filters units. The brass hydrocharger will be replaced with a machined PVC Hydrocharger (33354). The Brass Hydrocharger and its parts will still be available as parts only. The change to the PVC Hydrocharger was due to a significant increase in the cost of brass.

Extensive testing was performed on the PVC Hydrocharger. It meets or exceeds the brass version.

The following are the PVC Hydrocharger specifications:

Material: Machined PVC Inlet/Outlet: 1" FNPT
 Length: 3.8" Diameter: 2.3"

This is a running change as the inventory of units with brass hydrochargers is exhausted units with the PVC hydrocharger will be sent. A label has been added to the outside of the carton of the Chemical Free units. This label will identify the units built with PVC Hydrochargers.

Item Number: 33354
 HYDROCHARGER, ASSY, 1" FNPT,
 ADJUSTABLE, PVC

WaterGroup attends CIPHEX ROADSHOW - COAST TO COAST -

The CIPHEX Roadshow made five stops across Canada: October 5 in St. John's, NL, November 1 in Winnipeg, MB, November 6 in Saskatoon, SK, November 8 in Regina, SK and November 15 in Vancouver, BC. Contractors, wholesaler distributors, government, engineers and designers were all there to see all that's new in the industry, and meet and do business with 40 exhibiting companies.

WaterGroup attended and displayed at the show featuring our new TITAN Sump and Wastewater Pumps as well as our new Durojet™ Convertible Jet Pump. We feel the Ciphex Roadshow is a valuable tool for us to show our customers what's new at WaterGroup.

WaterGroup: It's What We Do!

Booster Pump and Mascontrol Package Item #6080

The DuroJet Booster utilizes the Mascontrol to provide an economical packaged pressure booster pump. Although designed to boost pressure on municipal water supplies it can also be used for various other applications such as a sprinkler pump or water transfer with an automatic control. The Mascontrol senses water flow as low as .21 gpm and also has a run-dry sensor to prevent pump burnout due to low water supply or loss of prime.

Booster Pump Performance - 1/2 HP

Service Flow GPM	5	10	15	20
Pressure Boost PSI	36	32	25	13

Stay tuned... for the following new product to be introduced in the next few months.

Deep Well Submersible Pumps

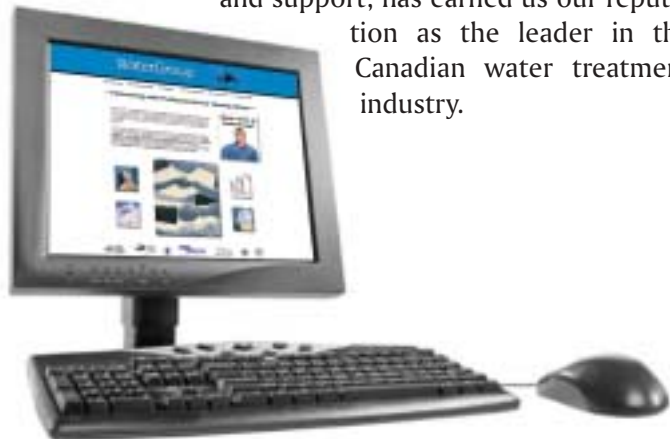

WaterGroup is pleased to announce the introduction of the "All New Duro Dynaflo" Deep Well Submersible Pump line and unlike the current product line, it will come with an internal check valve. We have also developed this product to be more in line with today's market requirements and we will offer it in 5, 7, 10, 15 and 20 gpm models with a composite discharge and motor bracket. Additionally, we will have 30, 50 and 85 gpm models with cast stainless steel discharge head and motor bracket. All Duro Dynaflo's will be powered by Franklin super stainless motors.

Look for this exciting new product at your favourite WaterGroup stocking wholesaler in early January 2008.

WaterGroup Partnering with professionals for quality water.

Since 1967, WaterGroup has manufactured and distributed water treatment and pump products across Canada. Our commitment to providing our customers with quality, leading-edge products, backed by unparalleled service and support, has earned us our reputation as the leader in the Canadian water treatment industry.

WaterGroup's website is a helpful tool in providing our customers with product information, manuals and brochures for download and our contact information. There is also a password protected area which has exclusive information for our customers.
